The Factual Forum will begin at 5 p.m. with a seminar for architects and engineers, and members, an hour-long session featuring qualified experts in the oil heating field.

A social hour will take place from 6 p.m. to 7 p.m., and dinner will take place at 7.

Mr. Trudeau said the dinner speaker will be George F. Byrne, executive vice-president of the Oil Heat Institute of Long Island, considered one of the foremost men in the oil heat industry.

Members of the Oil Heat Factual Forum committee include Charles E. Plankey, president of the Oil Heat Council and of the

## Barufaldi-Guidetti In Lead Roles For "Do Re Mi" Musical

ROBERT GUIDETTI

LINDA BARUFALDI

Linda Barufaldi and Robert Guidetti have the leading roles in the Agawam High School Musical "Do-Re-Mi." Both bring several years show experience to the Broadway show that will be presented on March 11, 12 and 13.

Bob has the part of Hubie Cram who was played by Phil Silvers in the Broadway run of the show. Linda will play his wife, Kay, done by Nancy Walker in the original production.

Linda started her high school musicals in the stage chorus of "Annie Get Your Gun" for the school and the Storowton Music Fair productions in her freshman year. That same year she went to Mason City, Iowa, as a member of the high school band. As a sophomore, she practically stopped

of Albert's mother in "Bye Bye Birdie." Last year she gave a fine performance in the role of Sue (Suzanswerphone) in "Bells Are Ringing," as well as being voted best actress in the inter-class play contest.

She has maintained her interest in music and drama groups throughout her high school years as a member of chorale and band and is currently president of the Drama Club.

Robert also went to Mason City with the band and has been an active member of the percussion section. He started his show experience as Maude, the bartender, in "Bye Bye Birdie" and will be remembered for the part of Sandor, the bookie, in last year's musical "Bells Are Ringing." Last year saw Bob and Linda together in several scenes that provided some of the highlights of the show. This year, both have long and difficult parts, which should provide many memorable moments.

At the last meeting of the Agawam Club, a report was made by Food Tent Chairman Art Fuchs on the activities at the Eastern States Exposition last September, and the major item of expense was for 7,407 pounds of chicken. "Research in the History of Western Massachusetts" as related by Richard Garvey was very well done and was most interesting.

Members who attended the Mid-Winter Conference at the Schine Inn last Saturday were Nick Zuzzo, Chet Matys, Tom Vella, Ken Clouse, Frank Hardina, Duane Stebbins, John Galica, Bob Watson, John Porter, Henry McGowan, Bob Schilling, Vin Gallerani, Ken Burton, Tom Cascio, Art Fuchs, Bob Johnson, Paul Tatro, and seven wives. The discussions were informative and interesting. Consideration was given Henry McGowan to campaign against Gerd Schneider for the office of District Governor, but he withdrew in favor of Albert Tonelli of the Westfield Club.

The 2nd meeting in March will be a joint meeting with the West Springfield Club at Viamari's on Riverdale Road.

The next regular meeting will be Wednesday, Feb. 17th at the Agawam Congregational Church Hall, and we understand Chairman Ray Harris will have an unusual program.

### Jr. Women's Club Meeting Tuesday

A Covered Dish supper featuring specialty dishes from foreign countries will precede the Feb. 16th meeting of the Agawam Junior Women's Club to be held at the Captain Charles Leonard House. This meeting is for members only.

Supper will be served promptly at 7. Members are asked to have their donations in the kitchen by 6:45 p.m. Some of the delicacies to be available on the smorgasbord table are: Lebanese meat pies. Chinese lobster and Portuguese chicken and rice.

The Club philanthropies for this year will be approved at the business meeting to be conducted by President Mrs. Bruno Maule.

"Hobby Nite" will bring the evening to a close. Members will display and demonstrate their various hobbies.

This month will be the final opportunity for bringing commemorative and foreign stamps to be donated to the Veterans Hospitals.

Grapefruit at breakfast is a nutritious way to begin the day. One half of a medium size grapefruit offers enough vitamin C to meet the recommended daily allowance of this nutrient. ### TODAY'S AGRI-FACT

Lou Webster of the Dept. of Agriculture comments that at the Eastern States Exposition in West Springfield there was a surprising display of mink furs. Lou reminds us that in the early days of this country some of the big fortunes were founded on the fur trade. Now wild furs are being replaced by furs from animals grown with as much care as cattle or horses. It is estimated that several million dollars worth of minks are sold from Mass. farms, in some years doubtless exceeding the total value of potatoes.

## ZIP-Coded Addresses On Mail

Acting Postmaster Robert R. DeForge said today he has received word from Postmaster General John A. Gronouski in Washington, D. C., that a big "breakthrough" has now been made on electronic machines to read "ZIP-coded" addresses on mail."

The Postmaster General said he expects to begin installing these sophisticated new machines in major post offices starting in about a year. Each machine will be able to sort, as well as read, at the rate of 35,000 letters an hour.

The offices to get the address readers have not been announced, but the local postmaster said they will have significant effects on the mail in and out of each community. They will speed incoming mail to smaller offices from major cities and step up the dispatch of mail deposited in smaller communities but which must be processed enroute at major mail massing points.

The postmaster emphasized, however, introduction of the "seeing eye" device next year does not mean ZIP Code isn't useful already.

"ZIP code," he explained, "is important in mail handling under the system of mail processing already in use which will continue to be in use as the basic system at most points. These machines will be just another step in conjunction with the mechanical mail sorting machines developed... to help keep pace with the growing volumes of mail. The machine will not endanger jobs... they will only help meet mail expansion with minimum manpower expansion."

### GRAPEFRUIT

Have you ever rejected a grapefruit because it was green in color? If so, you were probably wrong in doing so. Late in the season, practically all grapefruit and oranges have a tendency to "re-green." This is not at all harmful to the fruit, but may actually indicate advanced maturity and therefore generally a more tasty fruit. If it should be overripe, you should be able to pick this out quickly enough by its withered appearance and its lighter-than-usual weight.

Two can live as cheaply as one; they usually have to.

Accidents that are easiest to avoid often occur most frequently. A leading reason says the Institute for Safer Living, is general simplicity of the accident-producing condition, leading to such human factors as over confidence, inattention and lack of alertness. Tailgating is cited as an example, which now accounts for about 25 per cent of all highway accidents.

### CAMP MILL BROOK COMPLETE PLANS

James H. Loomis Jr., chairman of the Day Camp Committee of the Agawam Community YMCA announced today that plans have been completed for the reorganization of the Associations newly named Camp Mill Brook.

Under the new organization, the camp will operate this summer for four, two-week periods, for a total of eight weeks. Previously the camp has operated for six weeks. Enrollment in each session will be strictly limited to 70 campers. Loomis said that this would enable the camp to accommodate as many campers as in previous years and would also give parents and campers more flexibility in their choice of camp periods.

Loomis indicated that the enrollment limit of 70 would enable the Camp Staff to better plan program and will result in a better camping experience for all campers. In the past, enrollment has fluctuated from as low as 50 campers in one session to 105 in other sessions.

Jack Moltenbrey, director of Camp Mill Brook is now interviewing candidates for the position of Co-Director and announcement of this position assignment should be forthcoming within two weeks. Selection and assignment of other staff members will begin shortly.

Loomis also said that because of the limitation on enrollment in any given period, registrations for the camp will be accepted earlier this year. Camp brochures will be ready by March 15th. Further information on Camp Mill Brook may be obtained by calling the YMCA office at 108 Perry Lane.

**SPORTSMEN'S CORNER**

By Bill Chiba

The next few weeks will witness the birth of a good many black bear cubs in Vermont... some may already be here. It is hard to believe that the new born cubs, usually two, from an adult two-hundred or more pound sow will weigh little more than a half-pound and will be about the size of a grapefruit. Nature has designed things this way since the young cubs will suckle for weeks while their mother remains in the twilight zone of hibernation. Cubs, as a rule, are born only every other year.

Black bear in the north are one of three related species east of the Mississippi River—all are large. Bears in this area do not hibernate in the manner of woodchucks or other hibernators who really take their winter sleep seriously. Bears, it might be well to note, can be awakened rather quickly and are apt not to show their best humor at this rudeness. Many times our bears, especially the boars or males, do not find a cave for a winter home. In these instances, they seem to get along quite well under the protection of an overhanging ledge, in thick evergreens, or perhaps under a brush pile on a southern exposure.

Vermont's annual bear kill by sportsmen place this relatively small state right in with the top bear-hunting states often much larger. The rugged terrain of the Green Mountain State is habitat to the bear's liking and it extends from the Canadian border to the Massachusetts line.

Division of Fisheries and Game's (H1008) to establish a wildlife land and water acquisition fund has been set for 11 a.m., Wednesday, Feb. 17, in room 443 at the state house. The Joint Committee on Natural Resources will conduct the hearing.

Contrary to what you have read against the bill and for what it stands for, every hunter, camper, fisherman, bird watcher, and boater should support this very important piece of legislation. H1008 proposes to establish an annual fund for preservation in public ownership of wildlife lands and waters and sites for multiple-purpose outdoor recreation. \$300,000 would come from the state's general fund, to match the \$300,000 to be realized from an increase of \$1.00 in the cost of hunting, fishing and trapping licenses. In this way, both sportsmen and citizens who don't hunt or fish will share the costs as well as the benefits. Up to now, the sportsmen's fund has borne the cost of such acquisitions alone.

If passed, the fund would also make Mass. eligible for additional federal aid monies under the recently passed Land and Water Conservation Act, thus potentially realizing over a million dollars a year for preservation of the state's rapidly disappearing sites for wildlife and outdoor recreation.

Two ice fishermen in Maine heard something scratching at the door of their fish shack. When it was open, in walked a muskrat. After dining on the smelts that were offered to him, he curled up in a corner and went to sleep, a wildlife version of the man who came to dinner.

**Too Many Deer**

Deer are so numerous on Maine's Mount Desert Island, scene of Acadia National Park, that something must be done to save them from malnutrition. One proposal is that an open season for archers be established. Another is that part of the herd be trapped and transported to other parts of the state. No decision either way yet.

The Veterans Administration operates three automatic data processing centers under the supervision of its Department of Data Management.

By LINDA BARUFALDI

#### Ski Club

Members of the Ski Club and their advisor, Mr. Suzor, have been going skiing at the Mt. Tom Ski area on Wednesday nights. These night trips give the members an opportunity to ski at a good area without having to make long trips to some of the more northern ski areas.

#### Legion Oratorical Contest

Senior class president Bob Swanson was chosen as the winner of the American Legion Oratorical Contest. Second prize was awarded to Bob Osolinski, and third place went to freshman Linda Antienowicz. Another freshman, Jean Stefanik, was given honorable mention. The speeches, the students' original work, were given at assembly. Cash prizes were furnished by the American Legion. Congratulations to these outstanding students on their excellent showing!

#### Assembly

Thursday and Friday, Agawam High students were entertained by WSPR disc jockey Paul Monson who gave a lecture and showed beautiful slides of the "postage stamp principalities" of Europe. As always, Mr. Monson gave a very interesting and informative program. Students always look forward to his visits.

#### Inter-Class Play Competition

Because of the flu epidemic and interference with operetta rehearsals, the Inter-class Play Competition has been postponed until April. The freshmen and sophomores work together on one play, and the juniors and seniors work separately to present a total of three plays. Watch the column for future news of this event.

#### Class Pictures

By now most seniors have picked up their class pictures from Loring Studios. As always, Loring has done a beautiful job, and seniors have already begun to exchange pictures as remembrances of their years at AHS.

#### Graduation

Bob Swanson, senior class president, has announced that graduation this year will be held at the Coliseum in West Springfield on June 11, a Friday night. The larger seating capacity will allow seniors to invite more of their relatives and friends than the limited space of the high school auditorium would allow.

#### Operetta

Operetta rehearsals continue each day after school. The stage couple of weeks in their schedule, practice sessions, and although the flu has set the cast back a couple of weeks in their schedule, the show seems to be on its way to completion. The performances will be on March 11, 12, and 13, and the public is invited to attend for a fun night of family entertainment.

## LEGION AUXILIARY UNIT NEWS

by Virginia Catchespaugh

## Special Notice To All Units

Please contact your Senators and Congressman immediately by card, letter or telegram regarding the proposed closing of the Rutland Heights Veterans Administration Hospital as of June 30, 1965.

The American Legion, Department of Massachusetts is definitely opposed to the closing of any Veterans Administration Installations and Commander Norman W. Stewart has asked all members and their families to voice their opposition immediately.

Our National President has wired our President, Elsie L. Morse, urgently requesting all Units send a letter of Protest, not only to our Congressmen and Senators, but also to President Lyndon B. Johnson, The White House; Honorable Olin Teague, House of Representatives and Administrator of Veterans Administration, William J. Driver, all of Wash-

ington, D. C., protesting this anti-veteran attitude of the Bureau of the Budget.

(From January 20th correspondence received from Adelaide L. Fitzgerald, Department Secretary-Treasurer).

## Scholarship Smorgasbord

On Saturday, Feb. 13th, the Legion and Auxiliary will hold a Smorgasbord to raise funds to award an Agawam student a Scholarship. The supper will include meat loaf, mashed potatoes, pickled beets, baked beans and home-made cupcakes, and will be served at 8:30 p.m. The public may purchase tickets from the Chairmen, Lou Morris and Mrs. Antoinette DeBarge, or at the Legion Home.

Mirror, Mirror  
On The Wall . . .

Laundermats are for washing clothes. They're also for watching streetcars.

Thanks to one civic-minded laundermat owner, citizens of suburban Brookline, Mass., are no longer among the shivering commuters.

Early-morning subway riders discovered that a laundermat across from a local subway stop was open for cleaning at a sunrise hour. Even though it meant craning their necks around other buildings to watch for the trains, commuters preferred the warmth of the cozy laundermat to the usual "open-air" waiting area.

Instead of closing the shop to them, the laundermat owner rose to the occasion. He decided to aid the "neck craners."

Now commuters wait in comfort keeping their eye on a mirror which has been carefully placed to frame streetcars coming down the track from the opposite direction.

A hand-lettered sign above reads: "Use this mirror to watch for your MTA cars."

When asked about the shape of the world, the schoolboy only quoted his father—and as a result was kept in after school.

Who escapes a duty, avoids a gain.

Career  
Notes

By RUTH WADE RAY

Ruth Wade Ray, Director of Ray-Vogue Schools, the oldest professional arts school in the U.S., answers high school seniors' questions about continuing their education in the creative arts.

Q. How do I know if I have creative talent?

A. In one of two ways. Most high schools give aptitude tests that will help to reveal this talent. If not, ask yourself: "Do I like creative things? Do I like to think up new ideas?" Chances are, if your answer is "yes," you will do well in this field. It's as simple as that.

Q. What career selections are possible in this field?

A. The chart shows six channels where the creative arts can be used to develop a career. After careful study our school chose these courses for persons with creative talents because they not only lead to interesting careers but also have excellent potential for placement and increased income.

Q. How long must I go to a professional school before graduating?

A. Most of the courses, such as Interior Design, Dress Design, Commercial Art and Fashion Illustration, require two years full time. Others, such as Photography and Fashion Merchandising, require only one year of full time schooling.

Q. Where can I get more information on a professional arts career?

A. You can get help from your high school counselor, or you can write to the Counselor at the Ray-Vogue Schools, 750 North Michigan Avenue, Chicago, Illinois, 60611. Specify area of interest from the chart above, otherwise general information will be sent to you.

Better check up if your car appears to steer too easily. You may be carrying too much weight in the rear. The Institute for Safer Living says that excessive weight in the trunk compartment may cause you to lose steering control in an emergency. Also it may lead to early break down of rear springs, axle or wheel parts. If you must carry heavy loads, distribute some of the weight to the passenger compartment.

## At Your Service

DAVID C. GALLANO  
Director of Veterans Services

Veterans with GI insurance are urged to drop the bad habit of "riding the 31-day grace period," following overdue premium payments, William F. Connors, manager of the Boston Veterans Administration office, said today.

Connors pointed out.

Older veterans and those with disabilities should be especially careful since they may not be able to obtain other insurance except at much higher rates.

Such a resolution during 1965 can save hundreds of policies that otherwise will lapse.

Experience proves that waiting for the grace period too often results in forgetting the deadline, and allowing policies to lapse,

## THE "INDIFFERENT MAN"

Are we approaching the age of the "Indifferent Man"?

President Carey of the Chamber of Commerce of the United States fears we may be. The "Indifferent Man", in his view, is the sort of individual who finds it safer to "withdraw into the crowd, to surrender his identity, to yield to remote authority the individual responsibility which has come down from the ancient City State of Athens to our own day as the stamp of a free people."

This, Mr. Carey also said, is an outgrowth of the complexity of space-age living. But that very complexity should in itself make each of us ever more zealous in protecting the rights, duties and responsibilities which characterize a free nation. The greater the problems, the greater must be our determination to keep the individual from being reduced to a statistic.

We have gone a long way toward becoming statistics. Plans and programs are in the wind which would take us still farther. This nation grew great and strong because it believed in the "Free Man." Will the "Indifferent Man" take his place?
